

SHELL SCHEME INFORMATION

Whats included with my shell stand?

Plain White Foamex internal walls
2 x Name Panels above wall panels
1 x 500w Electrical Socket
1 x Round Table & 2 Chairs
Grey Cord Carpet to stand area

What is the thickness of the overlay panel?

The thickness of the white Foamex panels is 3mm.

What is the height of the stand?

The total height of the shell scheme is 2.48m.
No internal ceiling grid or fascia or the shell stands so no height restrictions apply.

Can I mount a TV onto the wall?

You can mount a TV onto the wall of your stand, however you will require an MDF infill panel to reinforce the panel. These can be ordered via email or the shell scheme order form - please specify where you plan to mount the TV when placing your order so sufficient support can be allowed for.

How much weight can each panel hold?

This depends on a number of factors, such as the number of stands in your block and the distribution of weight across the panel. If you are planning on attaching items to the wall panels, please email a diagram that highlights where the items are going to be positioned. Please note the walls may be supported by floor level thin metal bases that will be inside the stand space.

How do I order graphics?

You can place your shell stand graphics order with our exhibitor services team. A shell scheme form included within this manual will allow you to place an order to enhance the plain white walls with either a stretch fabric sub dyed or standard Foamex overlaying the shell stand walls.

Can I drill into the panel?

Drilling into the panels is not permitted, and please do not pin or staple items to the stand. Doing so will result in charges for the damaged panel(s).

What is a nameboard?

The nameboard displays your company name and stand number. This is an upstand on the top of the dividing wall placed on each open sides of your stand, as shown on the visual. The Nameboard return form is included within this manual any forms not received before the show we will print the company name supplied by the organiser.

Is there electrics as part of the shell stand?

There is a package on the stand this is supplied through Informa Tech and consists of the following-
1 x 500w Socket (placed in the corner of the stand)
* Please note that no lighting is included in the shell package so if you wish to illuminate the stand area please place an order for spotlights on the electrical order form.
