General notes

1 Prices

The prices listed for logistics services do not include statutory VAT.

2 Liability/General German Freight Forwarding Terms and Conditions (ADSp)

Kühne + Nagel works exclusively to the terms of the latest version of the General German Freight Forwarding Terms and Conditions (ADSp). We draw attention in particular to the limitations on liability deviating from legislation in nos. 23 and 24 ADSp. No. 23 ADSp limits the legal liability for damage to goods per Art. 431 HGB [German Commercial Code] under the custody of the forwarder to 8,33 EUR/kg. Differing from the ADSp our invoices are payable 14 days after date of invoicing. We will be happy to send you the full text of the ADSp on request or it can be viewed here: www.kuehne-nagel.com/legal/adsp.html.

The logistics service provider's liability is based on the scope of the work ordered and ends with the placement of the exhibition goods at the exhibitor's stand and begins with the commencement of their removal from the exhibition stand, regardless of the exhibitor's or agent's presence. Delivery will be made from the first official day of construction of the marked exhibition stands.

Transport, storage and/or exhibitor insurances will only be taken out by the logistics service provider following a specific order.

3 Terms of payment

Created invoices of Kuehne + Nagel are within 14 days after the invoice date due unless otherwise agreed in writing exists. Kuehne + Nagel reserves the right to implement changes in the payment terms after timely announcement. Sufficient credit is provided.

Kuehne + Nagel reserves the right to implement changes to payment terms after timely notice and to charge for services in advance.

4 Claims and damage

Claims for damages must be made in writing to the offices of the logistics partner to Messe Hamburg immediately the damage has been ascertained. Verbal reports cannot be accepted. Damage events on site must be recorded by Kuehne + Nagel employees.

5 Use of technical devices

For reasons of safety and administration, the use of cranes and motorized forklifts with driver cabin for loading and unloading and building and dismantling work on the exhibition grounds is reserved exclusively for the exhibition forwarder commissioned by the organizer (see also technical guidelines 5.11).

6 Validity

This price list (exhibition forwarding charges) is valid from January 1st 2024. After this date, all previous exhibition forwarding charges will become null and void.

7 Empties

Empties include packaging and loading aids such as pallets and machine slides. The volume is calculated from the footprint of each piece. Dismantling of bulky wooden crates and stacking and binding empties at the exhibition stand are charged separately according to the price list. Empties and full goods must be packaged and labeled in such a way that they are protected from loss and damage, especially due to moisture. No liability is accepted for damage that occurs due to defective or missing packaging.

For goods which have remained in the empties the logistics partner takes no liability. Such goods are considered "full goods" (tariff point 8.2) for storage. For damages caused by a false declaration the official logistics partner is not liable. If empties are still at the stand immediately after the event has opened, they can be removed by the exhibition forwarder, on the instructions of Hamburg Messe, to the exhibitor's account, even if the exhibitor did not order them. Returns of empties will be undertaken in stages after the close of the last day of the exhibition. Waiting times must be planned accordingly, no liability is assumed for costs.

8 Liability Fee

Kuehne + Nagel charges EUR 5.00 per each working order, Delivery/- Collection order and full-good/empties order.

9 Capital provision commission

A capital provision commission (CPC) of 3% on the net invoice amount plus VAT will be charged. If the agreed payment deadline is met, this can be deducted upon payment.

10 Invoice Amendments

Kuehne + Nagel reserves the right to charge additional EUR 50.00 for subsequent invoice amendments.

11 e-Invoicing

It is agreed that all invoices will be send by e-Invoicing only. Kuehne + Nagel reserves the right to charge additional EUR 17,50 per each printed invoice.

12 Hall clearance

Hall clearances of customer goods commissioned by Hamburg Messe and Congress (e.g. after dismantling has ended) will be invoiced to the owner. If this cannot be determined, the costs will be passed on to the exhibitor.

13 Order bookings

Due to delays in the trade fair process, the booked times may be postponed. Claims for damages or demurrage do not arise from this and are expressly excluded.
